

Pro-FlashTM

BUILDING ENVELOPE SEALS

Patent Pending Technology

Professional, Fast & Economical

Breathable and Flexible

Weather Tight Elastomeric Seal

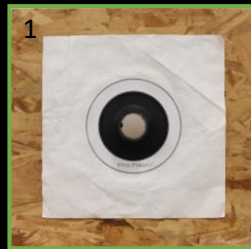

Score lines allow for multiple pipe sizes

US PATENTS:
9,140,002 & 9,109,359

- Easily integrates into your building envelope system
- Flexible membrane easily forms around any contours of the building (trims, corners, etc)
- No caulking or taping

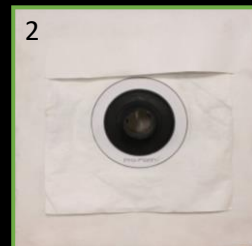

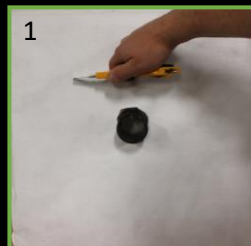

Pre-Wrap Installation:

1. Slide Pro-Flash over penetrations
2. Slide building wrap under bottom
3. Overlap building wrap over seal

Post-Wrap Installation:

1. Cut slit in building wrap above pipe
 2. Slide Pro-Flash into slit and over pipe
 3. Tape left and right sides and then top
- *use recommended manufacturer tape**
